TWO POST LIFT SERIES

QL10KCF

TWO POST CLEAR FLOOR LIFT

PRODUCT DESCRIPTION

- The 10,000 lb clear-floor design keeps the workspace between the columns open for vehicle service and shop equipment. It accommodates cars, trucks, and SUVs within its capacity and lifting-point requirements.
- Four symmetrical, three-stage arms extend to reach lifting points on compatible vehicles. Automatic arm restraints secure the arms during lifting. Door guards and toe guards help protect the vehicle and operator.
- Dual direct-drive hydraulic cylinders, self-lubricating UHMW polyethylene sliders, and bronze bushings support smooth, dependable carriage movement.
- A single-point release disengages both column safety locks. Equalizer cables help the carriages travel together, and an overhead shut-off bar stops upward travel when contacted.
- The 118.5 in. width between columns provides generous vehicle access. A fixed-height overhead beam keeps the floor clear. The 2 HP power unit uses a 220V, single-phase supply.
- Includes 3 in. height adapters and adjustable screw pads. Heavy-duty saddle adapters are available separately.

QL10KCF

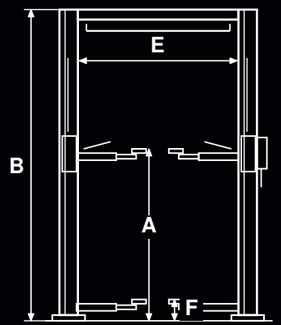

TWO POST CLEAR FLOOR LIFT

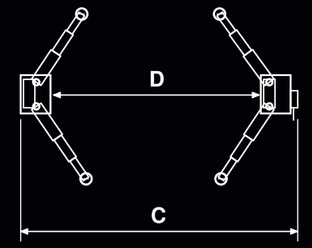

Technical parameters	
Model	QL10KCF
Lifting capacity	10,000 lb
Max. lifting height A	74.5 in.
Max. safety-lock height	72.5 in.
Overall height B	151.75 in.
Overall width C	144.75 in.
Drive-through clearance D	107 in.
Between columns E	118.5 in.
Minimum pad height F	3.5 in.
Gross weight	1,682 lb
Motor / power	2 HP / 220V, single-phase
Lifting time	61 seconds
Packing dimensions	154.25 x 20 x 32.25 in.
