PARKING LIFT SERIES

QL4P8K-LUXE
PARKING LIFT SERIES

PRODUCT DESCRIPTION

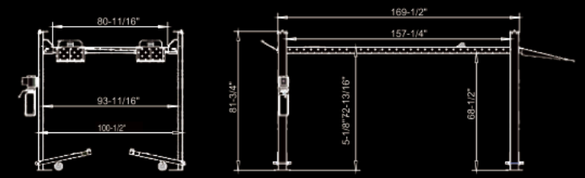

- Vertical parking lift ideal for everyday vehicle storage, with a lifting height of 72-13/16 inches and an 8,000 lb capacity.
- Compact design for convenient installation. The caster kit allows the lift to be moved easily when unloaded.
- Dual safety systems include manual mechanical locks and a cable-break protection mechanism for added safety.
- High-density slide blocks inside the columns provide a long service life.
- A burst-protection valve on the hydraulic line helps prevent a rapid descent if the line ruptures.
- One-piece platforms are made from high-strength, slip-resistant diamond plate.
- Wheel stops help prevent vehicles from rolling.
- An optional rolling jack makes vehicle maintenance easier.

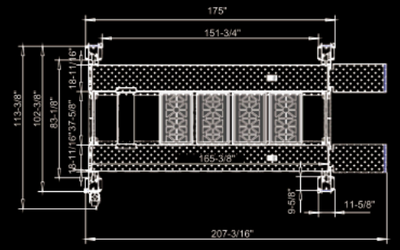

QL4P8K-LUXE
PARKING LIFT SERIES

Technical parameters

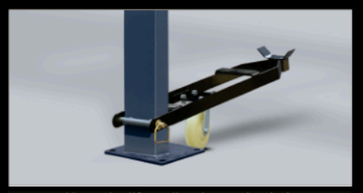

Model	QL4P8K-LUXE
Capacity	8,000 lb
Maximum lift height	72.8125 in.
Clearance on top lock	68.5 in.
Minimum runway height	5.125 in.
Overall height	81.75 in.
Width without motor	102.375 in.
Width with motor	113.375 in.
Length with ramps	207.1875 in.
Length without ramps	175 in.
Drive-through on lift	80.6875 in.
Between columns below	93.6875 in.
Runway length / width	165.375 / 18.6875 in.
Clear runway spacing	37.625 in.
Lifting time	50 seconds
Gross shipping weight	1,750 lb

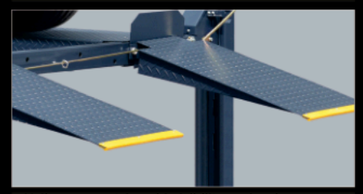

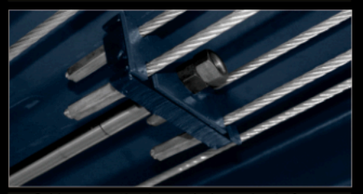

Detail

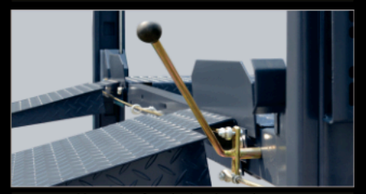

Hydraulic cylinder with burst-protection valve.

Move the lift easily when unloaded.

Safety mechanism locks if a cable breaks.

Yellow ramp strips aid visibility and reduce wear.

Cable connection beneath the main platform.

Manual safety-lock release lever.
